## PROFESSIONAL EXPERIENCE

### Frontend Development                                          Aug 2024 – Nov 2024
*FCI SVU Students Support Community*

- Learned foundational and advanced web development technologies including HTML, CSS, JavaScript, Bootstrap, Git, GitHub, and React.
- Collaborated with peers to build dynamic and responsive web applications.

### Backend Development                                           2024 - Present
*Self-taught*

- Applied knowledge from various Laravel courses to build scalable, secure, and user-friendly web applications.
- Transitioned from Django, leveraging one year of experience, to specialize in Laravel development.

### Problem Solver and ICPC Mentor                                2024 - Present
*SVNU ICPC Community*

- Solved over 1,389 programming problems on Codeforces.
- Currently mentoring new comer contestants in competitive programming, and problem-solving.

## PROJECTS

### Job board (Laravel, Jetstream, Blade)                                    2024
- Developed a full-featured job board allowing companies to post jobs and manage applicants, while users can browse and apply for positions.
- GitHub Repository: https://github.com/menaehab/Job-board

### Portfolio (React, Tailwindcss)                                           2024
- Designed a personal portfolio website to showcase projects, skills, and achievements.
- GitHub Repository: https://github.com/menaehab/my-portfolio
- Live Website: https://mena-ehab.vercel.app/
